

Negative

What's this new class, I'm absolutely terrified

I don't have any friends

Even worse petrified

My life might descend

Everyone has their own group

They're all staring at my soul

I'm stuck in a continuous loop

I'm being controlled

Forgetting why I'm here

My GPA is decreasing

Focusing on my career

My future is freezing

My life is overwhelmed

There's only male teachers

I'm being compelled

They sound just like preachers

Positive

The feeling of being connected

Helping me feel worthy

Making my life perfected

It's a new journey

Following my desired passions

Searching for different reasons

Seeing what happens

Throughout the fall season

Experiencing new methods

Feeling included

Having little sessions

I'm not being muted

Learning thinking skills

Understanding different perspectives

My mind is going up and down hills

Finding new objectives
